PROFESSIONAL SUMMARY

AI-focused developer and systems builder with a background in web development, automation, and workflow optimization. Experienced in supporting digital systems, AI-assisted workflows, and operational tasks using modern web technologies and productivity tools. Strong problem-solving skills, fast learner, and adaptable in remote work environments.

EXPERIENCE

Webtoon AI Image Creator | January 2025 – February 2026

- Generated AI-assisted webtoon visuals using prompt engineering and image generation workflows.
- Maintained character consistency, art style, and scene composition across multiple panels and chapters.
- Enhanced and refined AI-generated outputs through editing, iteration, and visual correction techniques.
- Collaborated with content teams to translate story concepts into engaging visual scenes.
- Optimized prompts and workflows to improve image quality, production speed, and creative consistency.

Barangay 27 Youth Council Leader (SK Chairperson) | 2024 – January 2026

- Lead community initiatives, operational planning, and digital coordination tasks.
- Manage communication, scheduling, documentation, and organizational workflows.
- Developed leadership, multitasking, and problem-solving skills.

GreenMinded IT Solutions – Web Development Intern | 2023

- Assisted in maintaining and improving web applications.
- Supported front-end and back-end troubleshooting and optimization.
- Collaborated with developers to improve website performance and user experience.

Freelance Virtual Assistant & AI Content Support | 2020 – 2022

- Assisted clients with administrative, digital, and workflow-related tasks.
 - Supported online systems, transcriptions and data entry tasks.
 - Organized documentation, data, and operational processes efficiently.
-
